Subject: Microsoft Settlement

I strongly object to the lenient terms in the Proposed Final Judgement.

This :

- Fails to properly remedy damages caused by Microsoft's illegal conduct
- Appears to lack any enforcement mechanism.
- Allows and encourages significant anti-competitive practices to continue
- Contains Misleading and Overly Narrow Definitions and Provisions
- Fails to Prohibit Anticompetitive License Terms currently used by Microsoft
- Fails to Prohibit Intentional Incompatibilities Historically Used by Microsoft
- Doesn't take into account Windows-compatible competing operating systems

I support the points of view of the Attorney General of Massachusetts and Dan Kegel.
